Section 5. Fire-Fighting Measures

Flammability: Flammable.
Extinguishing Media: SUITABLE: CO₂, dry chemical, or alcohol resistant foam
NON SUITABLE: Water.
Special Fire-Fighting Procedure: Avoid vapor inhalation. Keep away from sources of ignition. Do not smoke. Wear positive pressure self-contained breathing apparatus & protective clothing. Close containers may build up pressure when exposed to heat and should be cooled with water spray.
Unusual Fire and Explosion Hazards: Vapor may travel to source of ignition and flash back. Vapor may settle low or in confined spaces. May produce a floating fire hazard. Static ignition hazard can result from handling and use. Essential and vegetable oils have the potential to self-heat and contribute to spontaneous combustion when present on fabrics. Caution should be exercised in the storage and launder of fabrics exposed to oils.
